

Actividad: "Design the App"

La idea es que ellos se conviertan en un equipo de desarrolladores que debe **crear una aplicación**, pero toda la actividad se hace en inglés.

1. Forma grupos de 3 o 4

Su misión:

You are a software development team. Your company wants to create a new mobile application for students.

Your team must design the application and present your idea to the class.

Cada grupo debe escoger **un problema real de los estudiantes** y crear una solución tecnológica.

Por ejemplo:

- An app to organize homework.
- An app to learn English.
- An app to find study partners.
- An app to manage personal finances.
- An app to report problems at the SENA.
- An app to find job opportunities.
- An app to organize students' schedules.

2. Deben responder estas preguntas

Puedes proyectar esto:

OUR APP

1. What's the name of your app?
2. What problem does it solve?
3. Who are the users?
4. What can users do with the app?
5. What are the three most important features?
6. Why is your app useful?
7. What makes your app different from other apps?
8. How will you make money from the app?

3. El reto de inglés

Deben utilizar obligatoriamente:

- There is / There are
- Can / Can't
- Should
- Will
- Al menos 5 palabras relacionadas con software

Por ejemplo:

Our app is called StudyMate.

It is designed for students.

Users **can** organize their homework and create reminders.

There **are** three main features: a calendar, a chat and a task manager.

Students **should** use the app to organize their time.

In the future, we **will** add an AI assistant.

“Shark Tank”

Después de 15–20 minutos de preparación, cada grupo tiene **2 minutos para vender su app**.

Yo sere la inversionista y hacerles preguntas:

How much will the app cost?

Who are your competitors?

Why should I invest in your app?

How many users do you expect?

What will you do if people don't like the app?

What is the most important feature?

Cada grupo recibe una puntuación:

Category	Points
English	5
Creativity	5
Vocabulary	5

Category	Points
Teamwork	5
Presentation	5

Total: 25 points.

Al final, cada aprendiz vota por:

- 🏆 Best App
- 💡 Most Creative Idea
- 🎤 Best Presentation
- 🚀 Most Useful App
